

CENTENNIAL REGIONAL HIGH SCHOOL

COURSE OUTLINE 2020-2021

SUBJECT: Geography

Level: Cycle 1, Year 2 (Sec. 2)

Course Description & Objectives:

This course is designed to provide students with the tools for understanding the organization of a territory and certain geographic phenomena. Furthermore, students will be introduced to territorial and global issues that are affecting parts of the world. Geographic techniques such as reading and interpreting maps, research, and atlas work will be developed.

Course Content:

Students will learn about global and territorial geographic phenomena to better understand the connections between the world's different territories. The main units of study include:

- The Energy-Producing Territory
- The Agricultural Territory in Environments at Risk
- The Industrial Territory
- The Forest Territory
- The Native Territory
- An Urban Territory: The Heritage City

Subject Specific Competencies:

Competency 1: Understands the organization of a territory

Competency 2: Interprets a territorial issue

Competency 3: Constructs his/her consciousness of global citizenship

Evaluation:

Evaluation will be based on assignments, projects, group work, quizzes, and end of term evaluation situations. The class teacher will provide students with more details of the methods of evaluation for each term. Students will receive one mark that reflects their ability to master the course competencies.
