

CENTENNIAL REGIONAL HIGH SCHOOL

COURSE OUTLINE

2018-2019

Subject: World Geography – Senior Option Course

Level: Secondary 5

Course Description and Objectives

In this course we will study the different regions of the world including North America, South America, Europe, the Middle East, Asia, Africa and Australia. For each region of the world, the class will examine the physical environment, the culture and people, the economic activities of the regions and current events associated with these areas.

The student objectives are:

- To demonstrate a basic knowledge of location, landforms and resources of geographic regions.
- To develop skills in the use of maps, globes and other graphic tools to acquire and process geographic information.
- To understand how geography has affected the economic, social and cultural development of cultural regions.
- To analyze issues that challenge people from various regions of the world.

Subject Specific Competencies

Competency 1: To make sense of a territorial issue (Evaluated in Terms 1, 2 & 3)

Competency 2: To construct his/her global consciousness. (Evaluated in Terms 1, 2 & 3)

Evaluation:

Evaluation will be based on assignments, projects, group work, quizzes and end of term evaluation situations. Evaluation of both competencies will occur regularly, and throughout each of the three terms. The student will receive one mark that reflects their ability to master the course competencies.

Student Resources:

Students will make use of resources such as atlases, maps, videos, internet sites and handout packages given by the teacher.
